

Conferencing & Events

Lighthouse Cinema is available for a variety of private functions, including product launches, conferences, school project presentations and small business meetings.

Our venue has the advantage of the most up-to-date audio and visual equipment, with technical staff on hand to ensure that your individual requirements can be met. In addition, the stadium seating allows everyone attending to get an excellent view of the stage and screen.

The large foyer is perfect for hosting welcome drinks and there is plenty of room for buffet lunches to be served. It is large enough for exhibition stands if required, meaning that we can work with you to make your event unique and meet the standards that you would expect.

A range of welcome drinks and catering options can be provided (further details are available on request). Should a film be required, this can be sourced but costs may vary.

Including Technical Setup, the cinema is available to hire for the following rates:

- Up to 50 guests - £200 + VAT
- 51 to 100 guests - £275 + VAT
- 101 to 150 guests - £350 + VAT
- 151 to 200 guests - £400 + VAT

Prices may vary dependant on specific requirements
